## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

The species/embodiments are as follows:

Species/Embodiment 1: Figure 1;  
Species/Embodiment 2: Figure 7;  
Species/Embodiment 3: Figure 9;  
Species/Embodiment 4: Figure 11;  
Species/Embodiment 5: Figure 12;  
Species/Embodiment 6: Figure 13;  
Species/Embodiment 7: Figure 14;  
Species/Embodiment 8: Figure 18;  
Species/Embodiment 9: Figure 22;

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the invention unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
